

Arkray LT-1730 Blood Lactate Meter

Why Choose?

The **Arkray LT-1730 Blood Lactate Meter** is an ultra-fast, palm-sized analyzer designed for immediate and accurate lactate assessment. It supports critical decision-making in emergency, sports medicine, ICU, and point-of-care settings.

- “15-second lactate testing for instant clinical decisions.”
 - “Accurate lactate results anywhere, anytime.”
 - “Ultra-small blood sample. Ultra-fast results.”
 - “Pocket-sized power for high-performance diagnostics.”
 - “Designed for emergencies where every second counts.”
 - “Reliable lactate testing for hospital, field, or sports use.”
 - “Portable precision for critical patient monitoring.”
 - “Fast, easy, and accurate lactate measurement at the point of care.”
-

Unique Selling Points

- **Super-fast results in just 15 seconds** for rapid clinical decisions
 - **Requires only 0.3 µL blood**, making it ideal for sensitive or pediatric patients
 - **Compact, pocket-sized design** for easy use anywhere
 - **Highly accurate measurement** trusted across hospitals, ICUs, and sports science centers
 - **Simple strip-based testing** with minimal training needed
 - **Strong build quality** for long-term, reliable usage
 - **Low sample interference** ensures consistent performance
 - **Battery-operated convenience** for complete portability
-

Clinical Benefits for Hospital Laboratories

- Enables immediate lactate assessment during emergencies
- Supports early detection of sepsis, shock, and metabolic conditions
- Enhances workflow with near-patient testing
- Reduces lab burden by decentralizing routine lactate checks

Emergency Testing Performance

- Rapid 15-second turnaround ideal for critical care
 - Quick triaging of high-risk patients
 - Accurate readings even in urgent, high-pressure environments
 - Lightweight design ensures mobility for bedside or ambulance use
-

Why Hospitals Choose

- Reliable performance backed by consistent accuracy
 - Easy for nurses, clinicians, and technicians to operate
 - Durable and practical for daily, high-frequency use
 - Ideal for point-of-care, wards, emergency units, and physiotherapy departments
-

Transform Your Laboratory Today

Improve speed, accuracy, and patient outcomes with the **Arkray LT-1730 Blood Lactate Meter**—your portable solution for instant lactate diagnostics.
