

Biomeriux VIDAS 3 Automated Immunoassay System

Why Choose?

The **VIDAS 3 Automated Immunoassay System** offers fast, accurate, and fully automated immunoassay testing for small to medium-volume laboratories. Designed for reliability and workflow efficiency, it powers rapid decision-making across multiple clinical specialties.

- “12-test bench-top analyzer delivering fast, accurate immunoassay results.”
 - “Compact automation built for reliable on-demand testing.”
 - “36+ tests per hour with consistent, high-precision performance.”
 - “Closed-system design ensures safe, contamination-free diagnostics.”
 - “Multiparametric testing across infectious, fertility, and cardiac profiles.”
 - “Smart automation for small and medium hospital laboratories.”
 - “Touchscreen simplicity with world-class diagnostic accuracy.”
 - “Fast, flexible, and dependable immunoassay testing—anytime.”
-

Unique Selling Points

- **Automated, Walk-Away Immunoassay Testing** with minimal manual intervention.
 - **Up to 12 Tests per Run** and **36+ tests/hour throughput** for efficient lab operations.
 - **High Accuracy & Reproducibility** with single-use, closed test strips.
 - **Multiparametric Testing**—infectious diseases, fertility, cardiac markers & more.
 - **Compact Benchtop Design** ideal for hospitals with limited space.
 - **User-Friendly Touchscreen Interface** for quick setup and easy operation.
 - **Rapid On-Demand Testing** for urgent samples.
 - **Reliable Continuous Operation** with durable system components.
-

Clinical Benefits for Hospital Laboratories

- Delivers consistent, high-quality results essential for accurate diagnosis.
 - Supports a broad test menu, reducing dependency on multiple analyzers.
 - Enhances staff productivity through automation and simplified workflow.
 - Minimizes contamination risk with sealed, single-test consumables.
 - Suitable for departments like microbiology, hormone testing, and emergency care.
-

Emergency Testing Performance

- Fast turnaround times for STAT and critical care samples.
 - High sensitivity and specificity ensure confidence during urgent decision-making.
 - Stable throughput during peak testing hours without performance drop.
-

Why Hospitals Choose

- Trusted bioMérieux platform known for global diagnostic reliability.
 - Easy training and operation for both experienced technicians and new users.
 - Space-saving, durable system with long service life.
 - Delivers dependable results that improve patient care workflows.
-

Transform Your Laboratory Today

Upgrade to the **VIDAS 3 Automated Immunoassay System** and experience faster turnaround, superior precision, and smarter workflow automation—making your lab more efficient, accurate, and future-ready.
