

Arkray AUTION ELEVEN (AE-4020)

Fully automated urine sediment analyzer

Why Choose?

AUTION ELEVEN (AE-4020) redefines urine sediment analysis with speed, precision, and reliability. Designed for modern hospital laboratories, it ensures accurate diagnostics while simplifying daily workflow.

- Fully automated urine analysis with unmatched accuracy and speed.
 - High-throughput design for busy hospital laboratories.
 - User-friendly interface simplifies daily lab operations.
 - Advanced imaging ensures precise sediment detection.
 - Durable, low-maintenance equipment for long-term reliability.
 - Safe, closed system minimizes biohazard exposure.
 - Rapid results for timely clinical decision-making.
 - Compact design fits any laboratory setup effortlessly.
-

Unique Selling Points

- **Fully Automated Operation:** Reduces manual intervention, saving time and minimizing errors.
 - **High Accuracy & Precision:** Advanced imaging and detection ensure reliable results every time.
 - **Fast Processing:** Delivers rapid analysis for higher patient throughput.
 - **User-Friendly Interface:** Intuitive software for easy operation, data handling, and report generation.
 - **Durable & Low Maintenance:** Engineered for long-term reliability with minimal downtime.
 - **Safety Compliant:** Closed system minimizes exposure to biohazards.
 - **Compact & Space-Saving Design:** Ideal for labs of all sizes.
-

Clinical Benefits for Hospital Laboratories

- Enables consistent and reproducible results for better patient care.
- Streamlines workflow, allowing lab technicians to focus on critical tasks.
- Supports a wide range of urine samples with versatile analysis capabilities.

Emergency Testing Performance

- Rapid and reliable testing ensures prompt diagnosis in critical cases.
 - Automated processes reduce turnaround time, supporting urgent clinical decisions.
-

Why Hospitals Choose

- Trusted technology with a proven track record in diagnostic labs.
 - Low maintenance and high uptime improve operational efficiency.
 - Easy integration with laboratory information systems (LIS) for seamless reporting.
-

Transform Your Laboratory Today

Upgrade your lab with the AUTION ELEVEN (AE-4020) and experience precision, efficiency, and safety in urine sediment analysis like never before.
