

Horiba Pentra C 200

Automated Clinical Chemistry Analyzer

Why Choose?

The Horiba Pentra C 200 is a compact, fully automated clinical chemistry analyzer engineered for small laboratories that demand exceptional performance and convenience. With robust design and rapid test throughput, it delivers accurate results while optimizing workflows and minimizing manual intervention.

- Compact powerhouse: 200 tests/hour for rapid, reliable results.
 - Automatic sample and reagent management for error-free processing.
 - Designed for busy labs—ease of use meets clinical precision.
 - Disposable cuvettes eliminate cleaning, maximize efficiency.
 - Fast STAT sample access for emergency turnaround.
 - User-friendly touchscreen for simplified operation.
 - Proven Horiba quality, built to last in demanding environments.
 - Boost lab productivity and patient care with Pentra C 200.
-

Unique Selling Points

- Compact benchtop analyzer, ideal for facilities with limited space but high testing needs.
 - Impressive throughput of up to 200 tests per hour ensures fast, reliable reporting.
 - Fully automated sample handling, reagent dispensing, and result analysis minimizes manual errors and streamlines workflow.
 - Integrated sample barcode reader enhances traceability and reduces mix-ups.
 - Onboard refrigerated reagent compartment maintains optimal conditions for reagent stability and result accuracy.
 - Disposable cuvette system eliminates cleaning hassles and cross-contamination risk.
 - User-friendly touchscreen interface simplifies training and daily operation.
 - CE Marked, meeting global quality and safety standards.
-

Clinical Benefits for Hospital Laboratories

- Delivers consistent, reproducible chemistry results that support confident diagnosis and patient care.
 - Rapid processing keeps pace with emergency and routine workloads, enhancing operational efficiency.
 - Streamlined automated workflow allows laboratories to optimize technician productivity and reduce turnaround time.
 - Reliable performance with minimal downtime for busy clinical settings.
-

Emergency Testing Performance

- Fast test cycles and high throughput ensure urgent samples are processed without delay.
 - Integrated STAT sample position provides quick access for emergency specimens.
 - Durable design supports continuous operation, even during peak demand periods.
-

Why Hospitals Choose

- Trusted Horiba brand reputation for quality, accuracy, and innovation.
 - Excellent balance of speed, reliability, and ease of use in an affordable package.
 - Minimal maintenance requirements and automated daily checks keep the analyzer running smoothly, reducing technician burden.
 - Backed by a strong service and support network for peace of mind.
-

Transform Your Laboratory Today

Upgrade your workflow from manual or semi-automated systems to the Pentra C 200. Experience the difference with faster turnaround times, fewer errors, and proven reliability—empowering your team to deliver superior patient care.
